

Task 2

Online Learning Dashboard

Technologies : HTML, CSS, JavaScript (React.js optional)

Submission Method : GitHub Repository Link

Deadline : March 20th

Problem Statement:

Build a fully interactive front-end web application called EduPortal that acts as an online learning dashboard for students. The platform should allow students to explore courses, track progress, take quizzes, and view leaderboards. The application should have a responsive design (desktop and mobile) and implement modern UI/UX practices using HTML, CSS, JavaScript,

Minimum Functionalities to Implement (At least 15 features):

1. Landing Page with Course Categories (e.g., Web Development, AI, Data Science).
2. Course Details Page with title, description, and video thumbnail.
3. Student Dashboard showing enrolled courses and progress bars.
4. Progress Tracking using localStorage.
5. Quiz Section with MCQs and score calculation.
6. Leaderboard displaying top scorers dynamically.
7. Search Bar to find courses.
8. Filter courses by Category or Difficulty Level.
9. Dark Mode Toggle.
10. Responsive Navigation Bar with dropdown menus.
11. Profile Page (student name, photo, enrolled courses).
12. Course Recommendation Section.
13. Notification Panel (dummy updates like 'New Quiz Added').
14. Bookmark / Favorite Courses feature.
15. Contact / Feedback Form with validation.
16. Animation / Transition Effects (CSS/JS or React animations).
17. Basic Accessibility Support (keyboard navigation, alt text).
18. Students can add extra features for bonus points.

Rules

1. Use only front-end technologies (HTML, CSS, JavaScript, React Js).
2. No backend required; use dummy JSON / localStorage / static files.
3. Code should be original. AI tools may be used for assistance, but copied templates without modification will get low marks.
4. Students must implement at least 15 working functionalities from the list above.
5. Code should be well-structured and properly commented.

Submission

Upload the completed project to GitHub and share the repository link before the deadline.
